FLORENZ DE JESUS

SOFTWARE DEVELOPER

+639477672732 | dejesusflorenz8@gmail.com | Taguig, PH | linkedin.com/in/florenz-de-jesus | florenzdejesus.space

PROFESSIONAL SUMMARY

Innovative and detail-oriented Software Developer with a proven track record of delivering robust, secure, and scalable applications. Skilled in both frontend and backend technologies, with proficiency in Vue, React, Node.js, MongoDB, and MySQL. Experienced in AWS infrastructure management and continuous integration/deployment (CI/CD), ensuring optimized performance and reliability. Recognized for strong problem-solving skills, collaborative teamwork, and adaptability to emerging technologies. Achieved Magna Cum Laude distinction and multiple awards, including Most Promising Application Developer, Most Innovative Project Finalist, and Most Disruptive Innovation during college years — reflecting a strong foundation in technical excellence and innovation.

KEY SKILLS

Problem-solving & Critical Thinking | Adaptability | Flexibility | Collaboration | Full-stack Web Application Development | API Design & Integration | Continuous Integration/Continuous Deployment (CI/CD)

TECHNICAL SKILLS

HTML | CSS | Vue | Nuxt | React | Next | Node JS | Fastify | Express | MySQL | Postgres | MongoDB | AWS

WORK EXPERIENCE

Jeremiah 2911 Corporation | Mid Web Developer   Nov 2024 – June 2025

- Develop and maintain the foundation of our internal systems, including authentication, ticketing, messaging, accomplishment reporting, and announcement systems.
- Design and implement continuous integration and continuous deployment (CI/CD) pipelines using GitHub Actions.
- Ensure adherence to best practices and architectural patterns in software development.
- Leverage technologies such as Nuxt.js, Fastify, and MySQL to build robust and scalable applications
- Handles deployment on AWS

My Dream Visa LLC | Software Engineer   Feb 2024 – Oct 2024

- Translated Figma designs into functional, responsive components.
- Developed APIs for generating reports and handling data efficiently.
- Refactored components to ensure reusability and maintainability.
- Contributed to the development of the admin panel, enhancing its functionality and user experience.
- Provided training and mentorship to software developer interns, fostering their growth and skill development.
- Leveraged technologies such as Quasar, Nuxt.js, Express, and MySQL to build scalable and high-performance solutions.

Lucky Savers | Freelance Web Developer   January 2024

- Developed an e-commerce website for a small-scale business, overseeing the entire project lifecycle from design to deployment.
- Managed all aspects of the project, including development, testing, and deployment.
- Utilized technologies such as React, Next.js, Node.js, and MongoDB to build a robust and scalable solution

EDUCATION & CERTIFICATIONS

BACHELOR'S DEGREE | Computer Science Major in Application Development | University of Makati   2020 – 2024
DEAN'S LISTER | University of Makati   2020 – 2024
MOST PROMISING APPLICATION DEVELOPER | University of Makati   2024
MOST INNOVATIVE PROJECT FINALIST (THESIS) | University of Makati   2024
MOST DISRUPTIVE INNOVATION (HACKATHON) | University of Makati   2021
MOST COMMERCIALLY VIABLE (HACKATHON) | University of Makati   2021
